ANNUAL REPORT FOR 2019-2020

Organisation is mainly serving the children ,women ,and youth , as they are the most vulnerable in the society. The organization takes measures for the overall development of the children, Youth and women motivates their participation towards the self-development processes. We are grateful for the sincere supports being extended by our well wishers and philanthropists to our organization and for the services rendered by the skilled people, volunteers and the well-wishers. The program details are as follows:

❖ Home for working young women's :

our main focus and objective in the past few years on 'working women' in health sector working women's home we are proud for achieved our goal and mission vision to enlighten the poor young women's in their life and carrier to be an example in the society at present we have 30 are studying and staying in our home. we providing them all the support in peaceful growth in personal life good and education value based assistance.

❖ SC/ST welfare programs: the women from the SC/ST groups were covered through the programs and they were given the career guidance to choose the programs in their lives. Moreover, they were not aware of the job opportunities prevailing and available to gain better income. The guidance was a real time of learning for the beneficiaries. Some of them were able to get better jobs and few had found means to go for alternative income sources.

❖ Women Leadership programs: The training for the SHG women was organized in and around Tiruvallur and the surrounding villages and the women were gathered together in order to get together and to build up their solidarity. The training was mainly to sensitize the women in the welfare schemes and to motivate them to take up the local issues by themselves.

- ❖ **Vocational training programs:** The EDP was conducted for the women groups and the candidates of Tailoring and Jewel Making. The women from the Tiruvallur Taluk were covered and as many as 150 SHG women got benefited out of the programs. 250 students who were enrolled in diploma health courses were also covered under the programs. The training had strengthened the women and they are able to take up the local issues in a better manner.

- ❖ **Consumer rights awareness program** The consumer awareness camps were organized and the programs had enabled the rural poor to get to know the facts and figures about the weights and measures and the steps they should take to get prevented from the false and luring advertisements. The provision to complaint and to gain the justice in terms of injustices caused in regards to the consumer affairs were also oriented to the participants.

- ❖ **BC/OBC/MBC welfare programs:** the income generation programs were intended to educate the women who are totally depended on seasonal jobs and also in casual jobs and remain at home without any alternative. The program had enlightened the various schemes available for them to take up and to gain the needed financial supports with their own participation.
- ❖ **Health awareness programs:** The health screening camp was organized at Tiruvallur town from children's home children and pondur school children and as many as 250 members from surrounding villages had got benefited out of the programs. The severe cases were referred to the Hospitals and few were offered with the free spectacles.
- ❖ **Village survey of disabled persons:** The survey was one of the key program and the identification of the person with disabilities were identified and they were motivated to apply for identity cards and also to get the welfare schemes. The methods and the approaches they have to take up were oriented to them.
- ❖ **Free coaching -competitive exams** the free coaching to the rural children was taken up and the free tuitions and the importance was given in order to strengthen the rural children and enable them to gain better orientation and to motivate them to continue their studies. Special classes in the hard subjects were taken up and the children were able to learn from the same and to cope up with their lessons. As well as value based education also teach to the children for their personal development .
- ❖ **Skill development programs:** The skill development guidance was given to the women and the programs conducted were a real opener and the women were able to learn to approach the Banks and the financial Institutions in seeking the needed support for their self-development. Some of the women have started micro-enterprises and set as an example to other women.
- ❖ **Human rights awareness program:** the human rights are mainly oriented to the women groups as they are easily carried away and do not find better opportunities in their lives to come up.
- ❖ **Field surveyors/Analysts:** the field survey had enabled us to identity the needs of the persons with disabilities and the Formation of Groups for the persons with disabilities was taken up by the persons identified and have become the members of the groups. Identification of the MR Children was done and they are being given the physiotherapy.

Random survey of the person with disability have been listed out and the job opportunities for these deprived is being organized. The person with disabilities as many as 25 persons were made to present application for the implements to the National Institute for Empowerment of Person with Multiple Disability (NIEPMD) and they were able to gain the required supports.

Conclusion

The organization is thankful for all the local well wishers who had supported our program and we convey our sincere thanks for their liberal contributions and supports and seek the continued cooperation in all our endeavors in working for the cause of the poor and the needy people solidarity.
